Award Nomination Form

The more information we have about your nominee's achievement, the better we are able to assess their eligibility for the award. The questions below are to guide your written nomination.

What did they do, from start to finish, beginning with the challenge they faced and how they resolved it (their thinking process, any testing, how roadblocks were handled, the final result)

How did they show innovative thinking? Contrast it with the normal status quo. (Consider imagination, questioning, adapting to feedback, the standards they set)

Was their success "never-before-achieved?"

Describe the results of their work. How well does this serve external or internal customers, the company and/or improve the ways people work? Did it surpass expectations? How is it world class?

Describe what would have happened if the innovative thinking had not occurred and the challenge still existed. (Consider benefits like ease of use, dependability, accuracy, adaptability, long term value.)

Please provide any metrics that you can share that show the impact of this innovation like company growth or operations expansion over time.
