

Accelerate automation success with CoE Manager

The path to automation success is not always clear. Only 13% of organizations have been able to scale their digital workforce*. Scaling automation programs requires expert-led guidance and planning, governance, and the ability to demonstrate value delivered. Our CoE Manager helps organizations scale their automation initiatives and deliver real results.

Achieve and exceed automation targets

You can now maximize the value of your automation program with a simple, out-of-the-box tool that enables companies to manage the end-to-end program lifecycle, centralize governance, increase collaboration, and provide a platform for repeatable and dependable space after growth that can be measured. With this cloud-based application, teams of all sizes can start fast with minimal configuration or can tailor to specific, more complex enterprise needs. CoE Manager allows teams to:

Track And Manage Pipeline And ROI

Gain visibility and control over your automation lifecycle by tracking program data, targets, and progress from ideation to value realization.

Crowdsource Ideas

Enable business users to submit automation ideas to accelerate pipeline generation from knowledgeable sources.

Ensure Automation Governance

Leverage role-based access controls along with inbuilt approval workflows and user notifications.

Define & Measure Outcomes

Capture key value metrics like time and cost saved, or define your own KPIs, such as operational agility, cash flow, or sustainability.

Make Better Decisions

Develop a consistent and repeatable way of assessing automation opportunities for faster decision-making.

Maximize Value Creation

Realize and help your leadership teams understand the high ROI gains from your automation program.
