## COMMUNITY EDITION Installation Guide

## WELCOME

Welcome to the Automation Anywhere Community Edition. The purpose of this Guide is to help you install Community Edition components to get you started on your RPA and automation journey!

## **Getting Started**

After signing up for Automation Anywhere Community Edition, you will receive an email to welcome you to the product and help you get started.

Scroll down the page until you find the Control Room URL link in the message, as well as your Username and Password. Clink on the link to launch the Control Room:

**IMPORTANT:** If you are an existing Automation Anywhere customer or partner and you are using a licensed version of the client, please do not replace it with the Community Edition.

The Control Room will launch. Fill in your Username and Password from the email that you received. Then click the "Log in" button to log in to the Control Room.

The Automation Anywhere Team

## **Congratulations!**

You are ready to build your first bot!

To get started fast, take a free RPA course at the Automation Anywhere University <u>automationanywhereuniversity.com</u>. There are plenty of free courses and certifications that match your specific business function.

You can access complete documentation on all Automation Anywhere products at <u>docs.automationanywhere.com</u>.
