

What Real Users Are Saying About Automation Anywhere Versus Blue Prism

Somasundaram N.
Managing Director at Finixel
Technologies Private Limited

“We had to switch to Automation Anywhere due to the high initial license fee associated with Blue Prism. Automation Anywhere is more cost-effective.”

Team Lead Development
at a logistics company with
10,001+ employees

“We tried using Blue Prism for one of our projects but ran into a lot of complications when we tried to implement it ourselves. We found Automation Anywhere much easier to implement.”

Technology Analyst
at Infosys

“I have used Blue Prism as a primary automation tool but due to the limitation of commands/stages the organization considered AA as a primary tool.”
